FLUIDRA

Quality Pool Equipment for the Perfect Pool and Wellness Experience

For over 100 years, Fluidra has been developing industry-leading products that afford our customers a better pool experience. Today, our products are the most innovative, easy-to-use and reliable pool and spa products on the market.

Professional-Grade Equipment

With a full line of pumps, filters, heaters, valves, lights, chlorinators, and water features, Jandy® offers the complete package for any pool.

Premium Pool Cleaners

For more than 40 years, Polaris® has been the top-selling pool cleaner in the world. This visionary class of pool cleaners has become the benchmark against which all others are measured.

Innovative Consumer Products

Renowned worldwide for quality and reliability, Fluidra is the leading supplier of innovative, user-friendly consumer pool and spa products including cleaners, sanitizers, and automation solutions.

TRADE SERIES
EXCLUSIVE

Welcome to the Revolution

The new, reimagined Revolution™ 6-Port In-Floor Pool Cleaning Valve from Jandy In-Floor features an innovative design and industry-exclusive technologies that make this the most efficient and easiest to service hydraulic valve we have ever built! Now low-pressure compatible, the new QuickFlow™ shifting system maximizes full-pressure cleaning time with shorter and smoother shifts eliminating dead head.

The Original Self-Cleaning Pool

First developed in 1972, Jandy In-Floor is the original in-floor pool and spa cleaning system. Virtually invisible to the eye, a Jandy In-Floor system continuously works to keep the pool clean and provide complete circulation of water, heat, and chemicals. A Jandy In-Floor system efficiently cleans 99% of the pool, eliminating the need for vacuum hoses and other stand-alone pool cleaners.

When operating the system, a Jandy In-Floor valve directs water flow to strategically placed cleaning heads that pop up from the pool floor and rotate through 18 positions – more than any other in-floor pool cleaning system. Circling a full 360°, a stream of clean, freshly-filtered water pushes dirt and debris towards a central collecting drain before lowering and becoming level with the pool floor.

Valve, Head & Nozzle Options

Each Jandy In-Floor system comes with one of our zone-shifting valves – available with a programmable, electronic 8-port valve or hydraulic 6- or 5-port valve. Cleaning heads are available in 11 standard colors to perfectly match the pool floor. Six different nozzle sizes are available to direct the perfect stream of water for any pool design.

Free Custom Design Service

Each Jandy In-Floor system is custom designed for the unique size and shape of your pool. Our trained technicians will provide a certified blueprint free of charge.

Cleaning Head Colors to Match Your Pool Floor

*Results may vary based on pool design. **Dark Blue is available only for vinyl pools. Tan and Light Blue are only available for 21/2" Collars. White is available for use in vinyl pools.

Jandy® VS FloPro™ 2.7 HP Variable-Speed Pump

- With a 20% improvement in hydraulic performance over the previous generation model*, the new VS FloPro 2.7 HP variable-speed pump now generates higher head pressure and flow rates
- 115V/230V auto-sensing dual voltage motor automatically recognizes and adapts to power source
- Two auxiliary relays allow the pump to control other equipment such as a salt chlorinator and booster pump without a separate timeclock
- Great for new construction or as the perfect aftermarket replacement for high energy consuming single-speed pumps up to 2.5 HP
- Adjustable base included, allowing for direct replacement of leading Hayward®, Pentair®, Sta-Rite®, and other Jandy pumps

*Hydraulic Horsepower of VSFHP270DV2A model compared to VSFHP270AUT and VSFHP270JEP models as measured on system curve C at 3450 RPM.

Jandy® VS FloPro™ 1.85 HP Variable-Speed Pump

- Dual voltage capability that performs identically at 115V or 230V – making this the perfect aftermarket replacement for high energy consuming single-speed pumps up to 1.5 HP
- Two auxiliary relays allow the pump to control other equipment such as a salt chlorinator and booster pump without a separate timeclock
- Adjustable base included, allowing for direct replacement of leading Hayward®, Pentair®, Sta-Rite®, and other Jandy pumps
- Zero clearance TEFC motor pulls in cooler air from the side of the motor instead of the back, allowing for compact installation against walls or other tight spaces

TRADE SERIES
EXCLUSIVE

Jandy® FloPro™ Single-Speed and Two-Speed Pumps

- Adjustable base options available, allowing for direct replacement of leading Hayward®, Pentair®, Sta-Rite®, and Jandy pumps
- Compact body is ideal for small equipment areas
- Medium head, high-flow
- Single and energy-efficient two-speed models available
- .75, 1.0, 1.5, 2.0, 2.5 HP models available

Jandy® SFSM Series Side-Mount Sand Filters

- Our new series of Side-Mount Sand Filters are designed to keep pool water clean and pristine for any backyard pool design – big or small
- Jandy Side-Mount Sand Filters are available in four sizes; 24 inches, 30 inches 35 1/2" inches and 37 inches, ensuring there's a filter that can fit through a 36-inch doorway
- Engineered with industry-standard plumbing connections for hassle-free set up and simple filter swaps on existing pool pads
- Combination water/sand drain for easy maintenance
- Clean/dirty indicator on pressure gauge allows you to know exactly when to clean the filter for optimal filtration and water savings

TRADE SERIES
EXCLUSIVE

Jandy® CV Series Cartridge Filter

- Sweep elbow and unions allow the filter to easily connect to Jandy pumps and equipment
- 2" x 2 1/2" universal unions and easy-grip handles make installation and maintenance easy
- Extra-large 2" drain port allows for easy cleaning
- Unique pressure gauge features clean/dirty indicator that can be customized, making it easy to assess filter cartridge condition
- Versa Plumb®-ready
- 340, 460, 580 ft² models available

TRADE SERIES
EXCLUSIVE

SFTM Top-Mount Sand Filters

- Large 2" valve for increased flow and enhanced filtration (SFTM24-2.0)
- 7-position multi-port valve can be rotated to quickly adjust filter mode
- 360° clamp-style valve rotates for easy installation
- Laterals fold up/down for quick installation and service (SFTM24-2.0)
- Blow-molded tank is corrosion- and UV-resistant
- Combination water/sand drain for easy maintenance and winterizing
- Unions and adapters included – no need to buy additional parts
- 22" and 24" models available

Jandy® Valves are the Industry Standard

For over 30 years, Jandy valves have been the undisputed leader in the pool and spa industry. Our commitment to quality makes for easier, problem-free installations. Jandy valves share one thing in common – dependability.

Dependability begins with top-of-the-line materials and rigorous quality control standards. Superior quality and plumbing versatility make Jandy valves the number one choice of pool and spa professionals everywhere.

Jandy 2- and 3-Port Diverter Valves with Never Lube® Technology

The Never Lube Valve is completely maintenance-free and built from the toughest CPVC material. It can withstand extreme chemical and temperature fluctuations without ever leaking, cracking or breaking.

- Available in 1.5" x 2", 2" x 2.5", and 2.5" x 3" sizes for easy use in conjunction with the Jandy Valve® Actuator for automatic operation
- The large 2-port and 3-port diverter valves are both 2.5" x 3", making them the largest valves on the market
- Included placards* label the valve position
- Never requires lubrication
- Adjustable-stop feature allows for custom and worry-free flow adjustment
- Never Lube diverter valves can handle flow rates up to 170 GPM with minimal head loss, making them great for spas and water features that require high flow rates
- All Never Lube Diverter Valves are lifetime guaranteed

AquaLink® RS – Ultimate Control of Your Pool

Jandy AquaLink RS systems enable total control of your backyard experience. AquaLink RS systems are fully integratable with home automation systems and feature our patented seasonal adjust technology, which can modify schedules throughout the year for additional energy savings.

- Control individual pool and spa functions, lighting, and water features from the convenience of your home
- Automate daily pool equipment functions, such as filtration, sanitation and cleaning, and create one-touch macros
- Integrates seamlessly with home automation systems
- Control equipment anytime, anywhere from a smartphone or tablet with the iAquaLink® app
- Create customized pool settings you can run with just the touch of a button to enjoy your pool the way you like

Accurate Water Leveling Technology for any Application

Levolor® water leveling systems electronically maintain water levels in pools, spas, fountains and ponds. It can be used anywhere a constant level of water is needed to maintain a beautiful appearance and protect equipment, especially vanishing edge designs. Installs easily on new or existing pools and spas without requiring structural modifications for installation.

Easily maintain water level without a hose

- Never fill the pool with a garden hose again.
- Automatically replaces water lost to evaporation and splashing.

Proven Reliability

- Unique electronics compensate for waves, will not overfill

Protects equipment & appearance

- Helps avoid equipment damage caused by low water levels.
- Maintains optimal water levels for peak equipment performance.

Jandy® TruClear® Salt Chlorinator

- Designed for easy installation, use, and service
- Constructed of durable Jandy Valve® CPVC material
- Transparent window for quick blade inspection
- Removable cell with attached cord for easy cleaning
- Compact design for easy integration into most equipment pad configurations
- Union version available for retrofit applications
- Auto-reversing polarity to help reduce calcium buildup
- 115V/240V hard-wired and self-contained design

Available in clear only.

TRADE SERIES
EXCLUSIVE

Sheer Descent® Waterfalls

Sheer Descent waterfalls produce a clear arc of water, projecting away from the pool wall. The flow can be adjusted to create a range of effects from an almost silent, glass-like sheet of water to a rushing mountain spring waterfall. Sheer Descent waterfalls come in a clear lip color to easily blend with any surrounding. Choose from the following styles: Sheer Descent, Sheer Rain™, Rain Arc™, Sheer Arc™, and Sheer Curtain™.

TRADE SERIES
EXCLUSIVE

Laminar Jets with LED

Laminar Jets with LED create spectacular backyard water entertainment with dazzling nighttime lighting effects. They produce clear or lighted arcs of water as they silently enter the pool or spa.

- Comes standard with built-in 12V LED lights, adjustable to the preferred intensity, and can be synchronized with Jandy® pool and spa LED lights
- Innovative internal flow adjustment valve conveniently located inside the canister

Adjusting multiple jets is a snap with the FlowControl MiniJet nozzle.

TRADE SERIES
EXCLUSIVE

Deck Jets and MiniJets®

Deck Jets create a beautiful arc of shimmering water from the deck to a pool or spa. They can be installed in almost any combination and the effects they create can be changed to meet any mood.

The MiniJet is designed to project a stream of water at a 45° angle of trajectory for a distance of up to 13 feet from the deck or under the coping. The MiniJet is available for in-ground and vinyl liner pools with colors to match the most popular pool tile finishes.

Polaris® FREEDOM™ Plus Cordless Robotic Cleaner

- Keep the deck clear and your pool clean with a cord-free design
- Hand-held remote uses LiFi technology to communicate with the cleaner under water
- The hand-held LiFi remote lets you call the cleaner to the waterline for easy, lightweight removal with quick water release
- View charging status, select from additional cleaning modes and receive end-of-cycle push notifications from the iAquaLink® app*
- Premium outdoor charging caddy provides easy transport and convenient charging
- On-demand cleaning of either the floor or floor, walls and waterline – Plus, app-activated waterline only and SMART Cycle options
- Cleans for up to 2.5 hours; Recharges in less than 5 hours
- Long-lasting lithium-ion battery won't compromise endurance or performance over time

*WiFi not available while cleaner is under water

Polaris® Spabot™ Cordless Robotic Spa Cleaner

- Easily and conveniently remove dirt and debris from your spa or hot tub
- Powered by a lithium-ion battery, just turn it on, let it clean, remove and recharge
- Dips and dives, crawls and climbs to maneuver around the small confines of the spa or hot tub – *Not intended for pool operation*
- Start a one-hour cleaning cycle with the slide of a button
- Innovative end-of-cycle buoyancy enables easy retrieval
- Never touch debris again – the easy-access canister holds 1 liter of debris
- Simply plug Spabot into an indoor outlet between cleaning cycles
- Rotating brushes gather debris and channel it towards the debris inlet
- Cleans the finest debris, like sand and silt, as well as leaves and pine needles

Polaris® ALPHA™ iQ+ Robotic Cleaner

- SMART Cycle Cleaning mode calculates optimal cleaning time
- Deliberate Navigation scans and measures pool
- Sensor Nav System™ automatically adjusts and adapts cleaning to pool
- Full-featured iAquaLink® app control schedules recurring cleaning cycles, displays current pool water temperature and receives timely status info straight from cleaner
- Receives automatic performance updates via WiFi connection
- 7 cleaning modes including SMART Cycle and Waterline Only
- Includes 70-foot Tangle Reducing Swivel cable for pools up to 60 feet long

Polaris® EPIC™ 8642iQ Robotic Cleaner

- Anytime, anywhere control with the iAquaLink® app via WiFi
- Powerful Cyclonic Vacuum Technology collects dirt and debris without losing suction
- Dual traction motor enables brushes to rotate independently for enhanced maneuverability and wall climbing
- Front and rear Double Helix Brushes feature a patent-pending blade design that helps channel dirt and debris to the inlet
- Proprietary Easy Lift Removal System allows you to retrieve at waterline (Water evacuates for lightweight removal)
- 60-Foot Cable with Tangle-Reducing Swivel keeps cable from tangling during operation
- Easy to access, large filter canister with transparent window takes the guesswork out of knowing when to empty the canister
- Durable caddy delivers ease of transport and storage
- Dual cleaning modes include one-touch, on-demand cleaning cycles of either the floor or the floor, walls and waterline
- Treaded, track wheel design provides increased surface area for better traction while creating stronger suction beneath the cleaner

Grand Effects® Fire & Water Elements – Designed to Inspire

Known for their beautifully crafted and high quality Fire and Water features, Grand Effects offers an inspiring product line designed to bring elegance and function to outdoor spaces. Each Fire and Water Feature incorporates either full automation or manual controls using safe and easy-to-install CSA certified burner systems with proprietary technology that is both proven and reliable.

Fire Bowls

For added flare and drama, fire bowls create a magnificent effect. Made from handcrafted copper, powder coated aluminum or concrete. Your designs will stand apart from the rest with a custom look and feel.

Fire Pits

These fiery focal points provide a warm backdrop making them the ideal centerpiece of a backyard. Choose from handmade copper or GFRC concrete.

Fire Pit & Rock Inserts

All Fire Pit and Rock Inserts incorporate full automation or manual operation using a CSA certified burner system. The patented burner assembly is factory tested, safe and easy to install.

Linear Inserts

All Linear Inserts incorporate either full automation or manual operation using a CSA certified burner system. Available in 3' to 10' lengths. Custom lengths and shapes are available upon request.

Fire & Water Bowls

Bring the elements of fire and water together in one alluring feature for an enchanting effect. They are available in a variety of sizes, shapes and finishes and are available with automated or manual operation.

Water Bowls & Plantiers

Create a peaceful oasis with water bowls and plantiers. Choose from concrete, metallic, or handmade copper pieces. Concrete pieces are available in different sizes and finishes.

Resort Series™ Lounger

- Relax, Reposition, Remove – Proprietary self-filling technology allows for easy installation and removal – no tools or hoses needed
- Stay Cool in Your Pool – Ideal for use in water up to 12" deep
- Durable & Fade Resistant – Durable rotomolded construction for long-lasting use with built-in UV protection that resists fading
- Compatible with All Pool Types – Add seating to any pool with a sun shelf
- Exclusive Colors & Visual Textures – Available in five colors and visual textures to complement any poolscape
- Complete Your Retreat – Pair loungers with Resort Series Sun Shelf Tables to complete your retreat
